TO OUR CUSTOMERS

WE LIST 200 of the leading and best varieties of seeds and take greatest care to secure only the best strains. Our seed is grown especially for us by the most reliable growers in various parts of the United States, so that it may be produced in the section that is best suited for the variety. For example, our Lima Bean seed is grown in California, Beans in Idaho, Cantaloupe in Colorado, Corn in Connecticut, Spinach and Turnip in the State of Washington, Peas in Wyoming, Onion Sets in Illinois, etc. Contracts are placed twelve to eighteen months before the seed is to be delivered or before the grower plants the seed stock. This is done to secure only fresh and highest-quality seeds for our customers.

We have a self-service seed department. All of the leading varieties of seeds will be packed in packets, ounces, $\frac{1}{4}$ pounds, $\frac{1}{2}$ pounds and pounds. $\frac{1}{2}$ pounds and pounds will be packed in transparent polyethylene bags. This self-service department is in addition to our counter service. This enables us to give faster and better service.

Fifty-six years' experience as seedsmen and commercial growers has taught us that only the best strains are worth while. We endeavor at all times to secure the highest-quality seeds obtainable and to offer them at minimum prices. All seed is carefully tested and none is allowed to be sold that we know to be poor in germination or in any way inferior.

Our store is located at the corner of Atlantic and Center Avenues opposite the Penna.-Reading Railroad Station at Sewell, N. J., twelve miles south of Camden. We welcome customers and friends to our store and shall be glad to show our seeds and plants.

NEW ADDITION

During the fall of 1959 we built an addition to our store which increases our total floor space to 22,000 square feet in the one building. This will give us additional space to display many new products for outdoor living, lawn tools, equipment, garden and home supplies.

TERMS

Seeds and Supplies: Cash with order, otherwise shipment will be made C. O. D. Remittance can be made by Check, Postal Money Order, Express Money Order or Registered Letter. You are protected by our safe delivery guarantee.

The fact being well known that no reputable seedsmen now guarantees seeds in any respect renders it unnecessary for us to say very much on this point, because it must be apparent to every intelligent person that no seedsmen can afford to send out poor or worthless seeds. There could be no more certain way of destroying his business.

While we exercise the greatest care to have all seeds, plants and bulbs

pure and reliable, we give no warranty express or implied, as to description, purity, productiveness, variety, or any other matter of any seeds, plants, or bulbs that we send out; and we will not in any way be responsible for the crop. Therefore in no case will Orol Ledden & Sons be liable for more than the amount actually paid us for seeds, plants or bulbs. If the purchaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

All prices quoted in this Catalog are subject to change without notice.

OROL LEDDEN & SONS

SAFE DELIVERY GUARANTEED. All seeds are guaranteed to arrive in first-class condition, and if they do not, mail carrier or expressman should be notified on delivery. If damaged, request him to make notation of damage, sign and mail to us at once, and more seeds will be forwarded or money refunded.

Ledden's ANNUAL and PERENNIAL Flower Seeds

NEW INTRODUCTIONS

Illustrated on back cover

MARIGOLD, Spun Gold. All-America Winner for 1960. An early, dwarf chrysanthemum-flowered type, 12 inches in height. Bushy growth with a multitude of large double flowers 3 inches across, with incurved, bright golden yellow petals. Three main features are: extreme earliness, uniformity of height and profuse blooming. Ideal for mass bedding, borders, plant flats and window boxes. Pkg. 35 cts.; 1/8 oz. \$1.25.

MARIGOLD, Toreador. All-America Winner for 1960. An F1 hybrid with big orange flowers, 4 inches in diameter. Fully double, nicely ruffled blooms, uniform in shape. An early and prolific bloomer. Very vigorous and bushy, growing 2 1/2 to 3 feet tall. Pkg. 50 cts.

SNAPDRAGON, Rocket Mixture. All-America Winner for 1960. This is the first F1 Hybrid Snapdragon purposely bred for garden use and hot-weather tolerance. Long spikes with evenly spaced florets produced on vigorous and uniform plants 3 feet tall. Mixture contains red, rose, orchid, bronze, gold and white. Pkg. 50 cts.

ZINNIA, Dark Jewels. Giant Cactus-Flowered Zinnia Mixture. Deep and vivid colors make this mixture different from anything you have seen before. Earlier cactus-flowered mixtures were pastel in effect. Strong orange, flame, scarlet, golden yellow, lavender, spirea-red and cherry blooms dominate this mixture, with just enough white to lend relief. Dark Jewels concentrates on the rich colors that stand out in the garden. Pkg. 25 cts.; 1/4 oz. \$1.15; oz. \$3.00.

AFRICAN DAISY, Mixed Colors (*Dimorphotheca*).

Daisy-like flowers about 3 1/2 inches across, in a wide range of colors. Used for cutting, edging and rock-gardens

Pkg. 1/4 oz. Oz.
\$0 10 \$0 60 \$1 75

AGERATUM, Blue Mink.

Dwarf, only 6 inches. Giant trusses of fluffy blue flowers. Plants upright yet compact. Illustrated on back cover...

20 75 2 50

Blue Perfection.

Large heads of deep blue flowers on 1-foot plants.

10 50 1 50

Blue Wonder.

Very dwarf strain of the finest compact type. Large flowers 4 to 5 inches above the ground. Splendid for borders, edging and pots.

10 75 2 25

ALYSSUM, Carpet of Snow.

Low, creeping annual; plant about 3 inches high, with heads of tiny, fragrant white flowers all summer. Used for edging, window-boxes, etc.

10 40 1 20

Pink Heather.

All-America Winner for 1959. Light pink to soft lavender-pink, deeper in cool weather and quite light in hot dry weather. An annual about 6 inches tall, with good spread of bloom until late September. Easily grown. Good for edging and bedding, rock-gardens and pot plants.

40

Royal Carpet.

A neat edging for the flower bed. Grows only a few inches high but 10 inches across. Flowers when only a few weeks old until end of season. Color vibrant purple.

25 80 2 50

Saxatile, Basket of Gold.

Perennial. Gray-green foliage and half-shrubby plants covered with a mass of bright yellow flowers in spring. Good for rock-garden.

10 40 1 20

Violet Queen.

Annual. Dwarf, compact plant covered with small violet-colored flowers. A free bloomer.

10 40 1 25

AMARANTHUS, Molten Fire (Summer Poinsettia).

Dark foliage, with brilliant poinsettia-like flower heads. Grows 4 feet high.

15 60 1 75

Tricolor Mixed.

Large leaves of brilliant red, scarlet and yellow. An annual reaching 3 feet.

10 40 1 20

ASTER, American Branching Wilt-resistant, Mixed.

Free-branching plants with large, compact flowers in all Aster colors. Late.

10 50 1 50

Wilt-resistant Super Giants.

Largest of all Asters and a superb cut-flower because of its long, wiry, non-branching stems and huge, ostrich-feather flowers.

25 90 2 75

Giant Crego, Wilt-resistant Strain, Mixed.

Beautiful, long-stemmed flowers of lacy form like Japanese chrysanthemums. Shades of crimson, rose, violet, pale blue, pink, white, etc. One of the most popular of the Annual Asters. The plants are strong and produce quantities of blooms 5 inches in diameter.

10 55 1 65

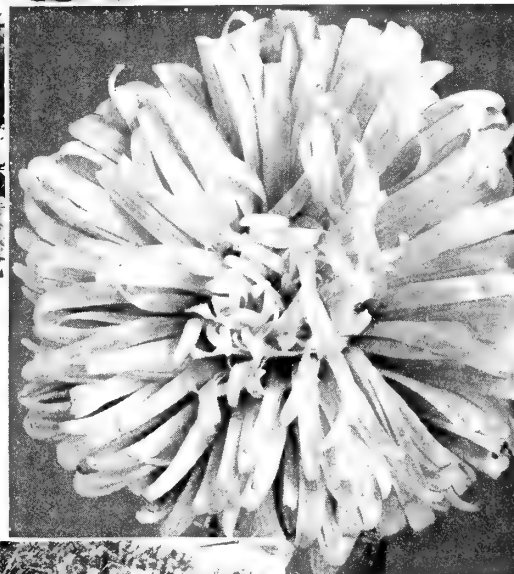

Our Aster seeds are grown by a leading California flower-seed grower specializing in growing wilt-resistant strains.

BIRD Vita-Bands and Pots

One of the ways to grow healthier, sturdier
crops that mature early and command top
prices is through the use of these famous plant
bands. Nutrient-treated Vita-Band 10 aids
plant growth from seedling stage through
transplanting time. Nutrient-treated Vita-
Band D is set with the plant, thus eliminating
the possibility of transplanting shock.

Planet Jr. Edger No. 2

The Planet Jr. Grass Edger assists wonderfully in producing an attractive walk. Price \$3.50 (mailing weight 4 lbs.) Postage extra.

We carry in stock a full line of attachments and steels for Planet Jr. tractors, wheel hoes and horse-drawn implements.

Since 1871 Planet Jr.'s specialty has been vegetable growing tools. There are two outstanding reasons for buying Planet Jr. Implements. First—they do their work in the most efficient way. Second—they keep on working long after cheaper and less efficient equipment is worn out and discarded.

Ledden's Formula No. 1 (with Clover). Mixed according to the specifications of the New Jersey Agricultural Experiment Station. A very fine lawn grass mixture using only the best grasses and White Dutch Clover. Analysis: Kentucky Blue Grass 55%, Redtop 10%, Colonial Bent Grass 10%, Perennial Rye Grass 10%, White Dutch Clover 5%, Creeping Red Fescue 10%. Lb. 95 cts.; 5 lbs. \$4.49; 10 lbs. \$8.25; 25 lbs. \$18.95.

We use the purest seed obtainable and of the highest germination; however, because each variety of grass seed has a very small content of inert matter, mostly in the form of seed hulls, there will be a slight variation of content from the above analyses. The analysis given on the grass seed bag will, therefore, read slightly different from the analysis stated above. However, the basic mixtures as described above will be the same.

Merion Blue Grass Mixture. This mixture is especially recommended by the Merion Blue Grass Growers Association as a high-grade Merion Blue Mixture. Analysis: Merion Blue Grass 40%, Pennlawn Fescue 50%, Highland Bent Grass 10%. Lb. \$1.60; 5 lbs. \$7.75; 10 lbs. \$14.75; 25 lbs. \$35.00.

Shady Lawn Grass Mixture. A specially prepared mixture for under shade trees or in shady corners. It meets the basic requirements of the shady lawn grass seed recommendations of the New Jersey Agricultural Experiment Station of Rutgers University. Analysis: Poa trivialis 35%, Creeping Red Fescue 30%, Perennial Rye Grass 15%, Redtop 10%, Colonial Bent Grass 10%. Lb. 89 cts.; 5 lbs. \$4.25; 10 lbs. \$7.95; 25 lbs. \$18.75.

Vacant Lot Lawn Grass. Our own mixture, composed entirely of perennial grasses with wider blades. Often Perennial Rye Grass and Timothy will stand where other grasses fail. Analysis: Perennial Rye Grass 50%, Kentucky 31 Fescue 30%, Timothy 20%. Lb. 45 cts.; 5 lbs. \$1.98; 10 lbs. \$3.50; 25 lbs. \$7.95.
